This illustrator found me on Instagram. I took a look at her art and fell in love with the style. The quality of this book is fantastic and I'm excited to use the prompts to guide me through making my next children's book.

This is the perfect Children's book author planner. It is beautifully illustrated and designed by Sumitra. Inside it includes all that is needed to help organize and guide you through the process as you publish your book. I will find this especially handy as I am self-publishing and can use it this time round to be more on track with my things to do.

A great use and so beautiful too. Can make a great gift for an author as well!
